

EVOLUTION

SERIES 3.0 INTERIOR

The Evolution 3.0 Series Interior provides a modern ergonomic design to achieve ease of operation, safety, and convenient storage to produce the most efficient, rugged, and reliable system in today's market.

Made to withstand the most severe conditions and ergonomically designed for comfort and efficiency, CUES vehicle-mounted systems can include TV inspection equipment for sanitary and storm water lines, laser and sonar pipe profiling systems, mainline joint and lateral sealing, and lateral reinstatement cutters for the relining industry.

The Evolution 3.0 Series Interior includes many standard features, such as insulated walls and ceilings for interior comfort, the best interior materials and finishes available to provide a long lasting quality work environment for the operator, a large tinted safety glass viewing window to maximize the viewing area when operating the equipment, and high-bright long life interior LED lighting to maximize operator safety and efficiency.

The CUES Evolution 3.0 Series is designed to maximize operator comfort, safety and convenience. Contact CUES to learn how a CCTV inspection vehicle can be customized per your specifications.

- Interiors designed to maximize operator comfort and convenience
- Smooth finished/weather resistant ceilings for increased durability, easy maintenance, and weight reduction
- Cabinets/walls constructed with marine grade/weather-resistant plywood; no particle board or MDF material used
- Vehicle layout is specifically designed for even weight distribution from side to side to ensure a quality ride
- Rear floodlights are installed inside of the rear doors for quick, simple adjustments
- Indirect high-bright LED lighting - produces even lighting, which eliminates glare on viewing monitors
- Electronic components mounted above the desktop to increase countertop space
- Flat screen LED video and computer monitors mounted above desktop (attached to electronics console) to maximize valuable countertop space in the Viewing Room

OPTIONAL EQUIPMENT
