

# C550c Hunter

## BASE STATION

The CUES C550c Hunter is mounted in a compact and rugged weatherproof enclosure that can fit into an ATV, van, or pickup truck to access easements and hard-to-reach areas.

Featuring the C550c controller, the Hunter is designed around the user, helping you to create survey reports more easily and efficiently. With a wide variety of manual and advanced powered drum options, wide choice of wheels, elevators and tires allow you to inspect pipes from relined 6" all the way up to 60".

**EASY-TO-USE**

**PORTABLE**

**COMPACT**

## On the HUNT for a portable inspection system for hard-to-reach areas?

- Sealed front door is hinged, supported by a gas shock, and functions as an awning in the open position.
- Compact, rugged, weatherproof enclosure: can fit into a pickup truck, ATV, trailer or van.
- Intuitive menus and dedicated function buttons guide you through your survey, allowing you to move to the next job more quickly.
- The C550C controller with built-in rechargeable battery and rugged IP55-rated case provide reliability and usability in most challenging environments.
- The C550c incorporates reporting templates to comply with multiple standards. Reports are available to share as soon as you have completed your survey.
- GraniteNet compatibility helps you manage tasks, perform inspections and make informed decisions about the condition of assets.

Select either a cost-effective manual cable drum or an advanced powered drum - each with up to 1000ft cable.

Three interchangeable cameras & two powerful crawlers are designed to withstand the most challenging sub-surface conditions.

A wide choice of wheels, elevators and tires optimize your inspection needs enabling you to inspect pipes from relined 6"- 60".

CUES C550c is also compatible with range of pushrod cameras, adding pipes as small as 1 1/2" to your capabilities.
