

UPGRADE YOUR RVC

Discounts Available

- ▶ All metal tip-up connector provides an increased range of motion and improves robustness leading to improved reliability.
- ▶ Tip-up connector allows for the camera to be inserted into and out of pipe without cable fatigue.
- ▶ Locking ring at end of tip up connector for securing mainline cable.
- ▶ Locking plate on underside of camera for securing tow cables.
- ▶ Pressure valve on side of camera replaced with a sealing screw, camera no longer needs to be pressurized for field use.

Trade-in your old CUES WM375 RVC with the Pigtail for a NEW CUES WM357 RVC with Tip-Up Connector!

Contact your local CUES RSM, RSR, or authorized Dealer for more information.
