

Avanti Grout, CUES, and Logiball
are partnering together again
on October 28-29, 2026, for their annual

2-DAY MUNICIPAL SEWER GROUT SCHOOL

OCTOBER 28-29, 2026

NEW CASTLE, DELAWARE

Both “newbies” and veterans will actively participate in the breakout and classroom sessions.

Emphasis on grouting, safety, operating the equipment, testing/troubleshooting equipment, proper chemical grout mix, and determining grout usage per joint or lateral.

Understand how and why injection grouting stops groundwater infiltration into sewer collections.

Learn about the **CUES Easy Grout System** for training with minimal learning curve, accurate recording / timing for air tests, packer pressure, and injecting the grout

No matter your level of experience, you should consider attending!

THE 2-DAY SESSION WILL PRESENT:

- Lateral and mainline Test and Seal packer operation and maintenance
- Mixing and optimizing AV-100 Acrylamide Grout performance
- Review and demonstration of new NASSCO/ICGC grout specifications
- Live infiltration and grout sealing demos
- New grout testing and monitoring information and methods

ATTENDEES WILL RECEIVE:

- Credit for (10) Professional Development Hours (PDH) certified by CIGMAT
- Safe Operating Practices Program (SOPP) certification
- Training documentation and product collateral
- Personalized Certificate of Completion
- Breakfast and lunch both days
