

LAMP II TROUBLESHOOTING

This is a one day class.

Prerequisite: TV Operator Troubleshooting Class.

This is an instructional class using power points and hands on training.

Topics covered in this session:

- Basic maintenance and care of Lamp II launcher.
- Lamp II push block assembly.
- Brown cable end terminations.
- Adding Lamp II into K2 system.
- Lamp II LED light head build and troubleshooting.
- Troubleshooting Lamp II on TV trucks.

This session is based on how Lamp II works with the K2 system.

**** Note: All students are responsible for their own accommodations and meals.****

Class is from 8am until 3pm with one hour for lunch (approximately 6 hours class time).
Cost of this class is \$300 / per person.
